

MAKE YOUR OWN SOCCER BALL JUST LIKE THE KIDS IN SOUTH AFRICA

1 This is like building a string ball or a tin foil ball. Start with the golf ball or rock at the center. Wrap it with a layer of rags. Tie it by winding the string around and around in all different directions. Tie the two ends of the string together with a knot. Wrap your ball with a layer of bags. Tie it in the same way.

2 Keep adding layers of rags and bags, tying each layer. Make sure your ball stays round and each layer is tied tightly.

3 Continue adding layers until it's the size you want it to be, like a small melon or an extra large grapefruit. Now think of a brand name for your ball and write it across the top with the marker.

SUPPLIES

- ◇ old golf ball or a small rock
- ◇ old rags
- ◇ lots of string
- ◇ plastic bags from the market
- ◇ marking pen
